9.2.1. Bear Creek Condominium Site Plan Amendment

The Director of Building, Planning & Waste Services reviewed the original site plan and the updated site plan, noting that Gold Leaf Properties accepted all conditions and requirements when taking over the development. Updates to the site plan include the addition of a Community Facility building and two additional residential units, bringing the total number of residential units to 32. Since the public meeting regarding the updated plan, Unit 7 has been moved, as the setback was so close to 547 Metcalfe Street. Fencing was also addressed; while it will be constructed in collaboration with neighbours, fencing will be wholly contained on the Gold Leaf property to allow for maintenance. It was noted that the agreement on title obligates the owner to complete all components of the site plan, including fencing. If approved, the site plan containing 32 units would be registered on title, therefore no additional units would be permitted on the site. Light pollution can be addressed via the zoning by-law.

Mayor Vanderheyden inquired if emergency services had been consulted regarding the site plan. The Director of Fire Services/Fire Chief confirmed that emergency services had been consulted throughout the site plan process and the turning radius of apparatus has been verified.

Councillor Pelkman appreciates that visitor parking has been moved to a more central location. Councillor Pelkman inquired about the possibility of a cluster of trees being planted to block headlights that may end up pointed at residences as vehicles wind through to the entrance/exit. The Councillor also confirmed with the Director of Building, Planning & Waste Services that green spaces will be maintained by the owner rather than individual tenants.

Councillor Kennes confirmed with the Director that the driveway that passes by Units 27 & 32 is a permanently dedicated secondary emergency access. Councillor Brennan confirmed with the Director that sidewalk access from Metcalfe Street East is not planned.

The Director of Building, Planning & Waste Services committed to working with the developer to update the landscape plan to incorporate the suggested trees. Councillor Kennes confirmed that the perimeter of the golf course is not fenced.

Moved by Councillors Kennes and Pelkman

THAT: Council approve the site plan amendment for the creation and development of thirty-two (32) residential units located at 561 Metcalfe St. E.
Carried.

9.3.1. Strathroy Library Building

The CAO presented the report, noting that the County of Middlesex has been increasing its service offerings at the Strathroy Library Building and anticipates a need for additional space, particularly as the local population grows.

Councillor Pelkman inquired if the proposal would also incorporate the future needs of the Town Hall. The CAO indicated that the intent of the plan is to gather all discussions and proposals to create a conceptual sketch to bring back to Council.

Deputy Mayor Richards inquired if the Museum also needs additional space. The CAO indicated that the Museum is content with the space it currently has, but believes that the plan should consider future needs and growth.

The funds to pay for the report will be drawn from the Future Needs Reserve. Recommendations coming out of the report may be drawn from Development Charges.

Deputy Mayor Richards confirmed with the CAO that Middlesex County administration will be notified of next steps.

Moved by Councillors Brennan and Kennes
